

Dear golfers,

We hope that you and your family are doing well in this epidemiological situation.

With this letter, we would like to inform you of our intention to open the Riverside golf course, once we obtain the permit to do so.

According to the "*Measures to limit social gatherings and holding sports and cultural events*" from March 19th, 2020, we had to suspend all competitions and training sessions. We expect that golf, as well as other individual contactless outdoor sports, will be able to start again from May 4th, 2020. At the moment we don't have confirmation that this will be the case.

We are aware that the Croatian golf association has submitted a proposal for safety measures for golf courses and training grounds to the Central State Office for Sport. Riverside Golf Course will be able to comply with all the proposed measures and be ready to work upon obtaining an official permit to start operation.

You will be informed about the exact start date and the conditions under which we will operate.

For all other questions feel free to contact us at info@riversidegolf.hr
We hope you are looking forward to returning to the golf course, as much as we are looking forward to seeing you too.

Riverside Golf Zagreb
